MAP No. 4

## LEGEND

Q	Quaternary alluvial plains and terraces	Clay, sand, silt, gravel
C	Carboniferous sedimentary rocks	Conglomerate, red sandstone, siltstone, shale
Dg	Devonian granitic rocks	
Dv	Devonian volcanic rocks	Rhyodacite, rhyolite, pyroclastic rocks
S-D	Silurian-Devonian sedimentary rocks	Mudstone, siltstone, sandstone
Sg	Silurian granitic rocks	
mg	Ordovician metamorphic rocks	Predominantly gneisses
ms	Ordovician metamorphic rocks	Predominantly schists
O	Ordovician sedimentary rocks	Sandstone, shale, siltstone, hornfels
c	Cambrian rocks	Basic volcanic and intrusive rocks, sediments

— Zone of contact metamorphism — Geomorphologic unit boundary  
STANLEY PLATEAU Geomorphologic unit

Note: Geological information is simplified from Geological Survey of Victoria maps.
